

OpenCarry.org

For Immediate Release – May 20, 2008

OpenCarry.org calls for a state-wide police “training day” to stop ongoing Keystone Cop gun grabs!

The jig is up. The police report is out. [1]

And based upon this report and the analysis by the Scranton Times-tribune's Charles Schillinger [2], it's not looking good for Dickson City Police Chief Stadniski nor Lackawanna County Assistant Attorney Kolcharno who jointly ordered the confiscation of lawfully owned handguns from PA residents Rich Banks and Roger Mccarren. Banks' gun has not yet been returned to him, and Mccarren's gun was inexplicably given by police to another citizen who did NOT own the gun.

The fact that neither the police nor the ADA have come clean to admit that there is no gun registration in PA and that no law limits gun carry to guns somehow “linked” in police databases to a person indicates that Stadniski & Kolcharno and, from Internet chatter, many police officers and DAs across PA must have missed the memo – i.e., Rep. Cruz's 2007 gun registration bill (HB 760) did not pass and was laughed out of Harrisburg!
